For Immediate Release

February 1th 2021

Long Beach Island Health Department will be hosting appointment based Covid-19 vaccination clinics at the St. Francis of Assisi Church Hall located at 4700 Long Beach Boulevard, Brant Beach. This week in conjunction with this clinic site we are launching an online scheduling platform where all appointments will be made through our Covid-19 tab on our web site at www.lbihealth.com. We will continue to post appointments based on the supply we physically have. Please familiarize yourself with the following information:

- The Long Beach Island (LBIHD) COVID-19 vaccination clinics are restricted to residents of Ocean County. Out of county residents should contact the local health department where they live for access to COVID-19 vaccinations. Ocean County residents will be required to have ID showing proof of residency when showing up to their appointment.
- Ocean County residents must have an appointment with LBIHD to receive a COVID-19 vaccine. The LBIHD does not have any reserve (leftover) vaccine at the end of the day. Therefore, anyone who shows up at the end of the day – or at anytime - without an appointment will be turned away.
- Appointments are NONTRANSFERABLE. Only the person named on the appointment will be able to receive the COVID-19 vaccine at that specific date/time. Please do NOT send anyone else in your place – they will be turned away.
- Anyone who received their first dose of the COVID-19 vaccine at one of the LBIHD vaccination sites, can expect to schedule the second dose at the same time you are able to schedule the first dose.
- Please do not call St. Francis Parish or Community Center regarding vaccine, they are not part of our scheduling system. Any individual with disabilities and/or access and functional needs, lack of computer access, should you require assistance, please call us at 609-492-1212.

The LBIHD appreciates everyone's patience as more vaccine, sites and appointments become available.
