Press Release October 25, 2021

Long Beach Island Health Department Offers Expanded Moderna Covid-19 Immunization Boosters Doses

Specifically for Moderna Boosters the Department is expanding vaccine clinics at St. Francis Parish Hall 4700 Long Beach Boulevard, Brant Beach.

When: St. Francis Parish Hall November 4th & 9th, 9am-3pm, by Appointment ONLY &

At the Health Department Office in Ship Bottom on Wednesday's by **Appointment ONLY**

Please register for an appointment at www.lbihealth.com, hover over the covid-19 tab.

According to the CDC, for individuals who received a Pfizer or Moderna COVID-19 vaccine, the following groups are eligible for a booster shot at **six months** or more after their initial series:

- 65 years and older
- Age 18+ who live in [long-term care settings](#)
- Age 18+ who have [underlying medical conditions](#)
- Age 18+ who work or live in [high-risk settings](#)
-

The authorization also recommends that everyone ages 18 and older who received a first Johnson & Johnson dose receive a booster dose **at least two months** after completing the single-dose primary regimen.

Eligible individuals may choose which vaccine they receive as a booster dose. Some individuals may have a preference for the vaccine type that they originally received and others, may prefer to get a different booster. CDC's recommendations now allow for this type of mix and match dosing for booster shots.

With the holidays approaching and the Delta variant continuing to impact the state, we encourage everyone who is eligible to get their booster shots as they consider travel and gatherings for the holiday season.

The Department continues its efforts to vaccinate as many people as possible, especially 12 to 17-year-olds. Those who have yet to be vaccinated are strongly encouraged to get their first shot today to protect not only themselves, but their family and community.

Local Resources: Long Beach Island Residents that are homebound or with lack of internet access or computer literacy who need assistance with navigating scheduling an appointment please call (609) 492-1212.

National Resources: To find additional access to Covid-19 vaccines, you can search by your zip code and vaccine manufacturer www.vaccine.gov
